

ELITE
SHOWERSCREENS

ELITE PERFORMANCE THAT
HAS STOOD THE TEST OF TIME

Showerscreen designs come and go, but *ELITE* sliding door enclosures are as popular today as they ever were.

It's the way they're built. Strong and durable, using heavy duty, non corrosive components throughout.

With stylish lines that look equally at home with traditional or modern decor.

Anti-jump head tracks keep the door panels firmly on the straight and narrow, and can be easily adjusted to keep them running as smoothly as the day they were installed.

A trackless sill at the bottom of the door stops water from splashing out onto the bathroom floor. And the smooth rounded finish of the sill prevents build up of dirt, soap or shampoo residue, making it even easier to keep clean.

If you want a showerscreen that's stylish, reliable and durable, look no further. Join the *ELITE*.

THE RIGHT CHOICE
FOR YOUR BATHROOM

ELITE showerscreens can be custom made

in whatever configuration best suits your

bathroom, with left or right opening

doors, or even a pivot door if you prefer.

Aluminium frames come in a choice of

square corners for a more traditional

look, or rounded corners that reflect many

of the more modern bathroom fittings.

Colours include a wide range of

fashionable powder coat and anodised

aluminium finishes.

And matching mirrors are also available.

Available from:

Front only

Front and return

Front and hob return

Corner enclosure
